Just got off a call with CHK. Am drafting something up right now. Will also include updated field schedule bullets.

Subject: Update for Bob Perciasepe

I'm preparing a monthly update for Bob P. The estimated sampling dates from the **last report** are below together with a description of where we stand w/ Chesapeake Please confirm or edit and add text where indicated. can you send back by noon Friday?

thanks!

Jeanne

- We have agreed with Chesapeake to identify an alternative location for our western prospective case study. We needed to move because Chesapeake's and our schedule would not allow our study in a scientifically rigorous way (no baseline sampling would be possible). We have met twice (once in Chesapeake's office) to identify alternative locations that meet timing and technical requirements. The

leading candidate locations are on the Kansas/Oklahoma border in the Mississippi Chalk formation. We are meeting with Chesapeake to resolve issues related to the prospective case study in DeSoto Parish, LA. Our goal is to find a new location with them that will offer the opportunity to do a scientifically valid study.
